

## BUSINESS PANDEMIC INFLUENZA PLANNING CHECKLIST

In the event of a pandemic influenza, businesses will play a key role in protecting employees' health and safety, as well as, limiting the negative impact to the economy and society. Planning for pandemic influenza is critical. To assist you in your efforts, the Sarpy/Cass Department of Health using Department of Health and Human Services (HHS) and the Centers for Disease Control and Prevention (CDC) information as a resource, has developed the following checklist for large businesses. It identifies important, specific activities large businesses can do now to prepare, many of which will also help you in other emergencies. Further information can be found at [www.sarpy.com](http://www.sarpy.com) , [www.pandemicflu.gov](http://www.pandemicflu.gov) and [www.cdc.gov/business](http://www.cdc.gov/business).

### 1.1 Plan for the impact of a pandemic on your business:

Completed	In Progress	Not Started	
<input type="text" value="date"/>	<input type="text" value="date"/>	<input type="text" value="date"/>	<p>Identify a pandemic coordinator and/or team with defined roles and responsibilities for preparedness and response planning. The planning process should include input from labor representatives.</p> <p>Identify essential employees and other critical inputs (e.g. raw materials, suppliers, sub-contractor services/products, and logistics) required to maintain business operations by location and function during a pandemic.</p> <p>Train and prepare ancillary workforce (e.g. contractors, employees in other job titles/descriptions, retirees.)</p> <p>Develop and plan for scenarios likely to result in an increase or decrease in demand for your products and/or services during a pandemic (e.g. effect of restriction on mass gatherings, need for hygiene supplies.)</p> <p>Determine potential impact of a pandemic on company business financials using multiple possible scenarios that affect different product lines and/or production sites.</p> <p>Determine potential impact of a pandemic on business-related domestic and international travel (e.g. quarantines, border closures.)</p> <p>Find up-to-date, reliable pandemic information from community public health, emergency management, and other sources and make sustainable links.</p> <p>Establish an emergency communications plan and revise periodically. This plan includes identification of key contacts (with back-ups) chain of communications (including suppliers and customers) and processes for tracking and communicating business and employee status.</p> <p>Implement an exercise/drill to test your plan, and revise periodically.</p>

1.2 Plan for the impact of a pandemic on your employees and customers:

Completed	In Progress	Not Started	
			<p>Forecast and allow for employee absences during a pandemic due to factors such as personal illness, family member illness, community containment measures and quarantines, school and/or business closures, and public transportation closures.</p> <p>Implement guidelines to modify the frequency and type of face to face contact (e.g. handshaking, seating in meetings, office layout, shared workstations) among employees and between employees and customers (refer to CDC recommendations.)</p> <p>Encourage and track annual influenza vaccination for employees.</p> <p>Evaluate employee access to and availability of health care services during a pandemic and improve services as needed.</p> <p>Evaluate employee access to and availability of mental health and social services during a pandemic, including corporate, community, and faith – based resources, and improve services as needed.</p> <p>Identify employees and key customers with special needs, and incorporate the requirements of such persons into your preparedness plan.</p>

1.3 Establish policies to be implemented during a pandemic:

Completed	In Progress	Not Started	
			<p>Establish policies for employee compensation and sick-leave absences unique to a pandemic (e.g. non-punitive, liberal leave) including policies on when a previously ill person is no longer infectious and can return to work after illness.</p> <p>Establish policies for flexible worksite (e.g. telecommuting) and flexible work hours such as staggered shifts, flex time, etc.</p> <p>Establish policies for preventing influenza spread at the worksite, such as promoting respiratory hygiene and cough etiquette. Provide prompt exclusion of workers that display influenza symptoms.</p> <p>Establish policies for employees who have been exposed to pandemic influenza, are suspected to be ill, or become ill at the worksite. These should include infection control response, and immediate mandatory sick leave.</p> <p>Establish policies for restricting travel to affected geographic areas, considering both domestic and international sites, evacuating employees working in or near an infected area when an outbreak begins, and</p>

			<p>guidance for employees returning from affected areas (refer to CDC travel recommendations.) Consider mandatory time off for 3 days following a trip to an effected area. This will give time for symptoms to develop.</p> <p>Set up authorities, triggers, and procedures for activating and terminating the company's response plan, altering business operations (e.g. shutting down operations in affected areas) and transferring business knowledge to key employees.</p>
--	--	--	---

1.4 Allocate resources to protect your employees and customers during a pandemic:

			<p>Provide sufficient and accessible infection control supplies such as hand sanitizer, tissues and closing receptacles for their disposal in all business locations.</p> <p>Enhance communications and information technology infrastructures as needed to support telecommuting and remote customer access.</p> <p>Ensure availability of medical consultation and advice fore emergency response.</p>
--	--	--	--

1.5 Communicate to and educate your employees:

			<p>Develop and disseminate programs and materials covering pandemic fundamentals (signs, symptoms, modes of transmission) personal and family protections and response strategies such as hand hygiene, coughing/sneezing etiquette, and contingency plans.</p> <p>Anticipate employee fear and anxiety, rumors and misinformation and plan communications accordingly.</p> <p>Ensure that communications are culturally and linguistically appropriate.</p> <p>Disseminate information to employees about your pandemic preparedness and response plan.</p> <p>Provide information for the at-home care of ill employees and family members.</p> <p>Develop platforms such as hotlines and dedicated websites for communicating pandemic status and actions to employees, vendors, suppliers, and customers inside and outside the worksite in a consistent and timely way, including redundancies in the emergency contact system.</p> <p>Identify community sources for timely and accurate pandemic information (domestic and international) and resources for obtaining counter-measures (e.g. vaccines and anti-virals)</p>
--	--	--	---

1.6 Coordinate with external organizations and help your community:

			<p>Collaborate with local public health, state and federal public health and emergency responders to participate in their planning processes, share your pandemic plans, and understand their capabilities and plans.</p> <p>Collaborate with insurers, health plans, and major healthcare facilities to share your pandemic plans and understand their capabilities and plans.</p> <p>Communicate with local public health agencies and emergency responders about the assets and services your business could contribute to the community during a pandemic.</p> <p>Share best practices with other businesses in your communities, chambers of commerce, and associations to improve community response efforts.</p>
