

SARPY/CASS HEALTH DEPARTMENT PROGRAM PROPOSAL

The Sarpy/Cass Department of Health and Wellness has a limited amount of funds to support innovative programs that address community health needs.

The following criteria must be met:

- Requestor must be a not-for-profit agency/organization...no individual requests
- Program must be sustainable by requesting agency without additional health department funding
- Funding request should not exceed \$5,000.
- Deadline for grant request is August 31, 2010.

Please include the following in a narrative describing the purpose and potential outcomes of the program:

A. Brief program description

- This does not need to be lengthy....a *few sentences* describing what the program is about and what population groups would be involved.

B. Needs addressed....ideally, (*but not limited to*) this would be from one of the following identified community needs:

- Obesity...prevention, remediation in adults and youth; exercise promotion, diet management, etc.
- Heart....promotion of cardio-pulmonary health
- Cancer....prevention programs, outreach, education, tobacco cessation
- Asthma...outreach to schools, employers, etc
- Diabetes awareness...schools, at risk populations
- Outreach programs, relating to pre and post natal visits, seniors visitations, vulnerable populations, etc.

C. Approximate cost of program

- Teaching materials
- Necessary supplies
- Incentives
- (salaries and refreshments will **not** be funded)

D. Staff involvement

- How many individuals are participating?
- Any other agencies involved?

E. Timeline

- Explain the frequency and duration of program
- Is it sustainable, ongoing, or limited in scope?

F. Measurement/Outcomes

- How will success be measured?
- What are anticipated outcomes?
- Explain evaluation tools
