

## Phase 1B Prioritization for Sarpy and Cass County Residents Aged 65 and Over Anticipated Dates to Begin Scheduling Appointments

Year of Birth	Age Group	Anticipated Date to Begin Scheduling Appointments  These dates may change based on vaccine availability, demand and available appointments
1941 or before	80 and older	January 29, 2021 2:45 pm
1946 or before	75 and older	Week of February 8, 2021
1951 or before	70 and older	Week of February 15, 2021
1956 or before	65 and older	Week of February 22, 2021

Appointments for vaccine are scheduled through individual clinics. Clinic information, including phone numbers and/or online registration links, will be provided at the time the age group is notified of eligibility. The above dates are anticipated dates to begin scheduling appointments for the vaccine, not the dates in which a resident will receive the actual vaccine; due to high demand and limited vaccine availability there may be several days or weeks delay in appointment times.
